

# Key questions to ask in assessing a potential payment network solution

Does it empower you to present invoices to literally **hundreds of AP portals**?

Is it partnered with a very **large number of payments providers**, including card issuers?

Does it offer an **integrated digital lockbox**?

Will you have **proven customer support** that's focused on your business success?

Will it provide **exceptional speed** and ease of implementation?

Does it enhance **PCI compliance**?

Will it **reduce your DSO**?

Does it **minimize disputes**?

Will it significantly **cut manual drudgery, keystroking, et al**?

Will it allow you to **scale without adding headcount** and redeploy staff to more strategic work?

Does it give you **easy access to the global B2B payments and banking universe** to support business growth and reach?
