

INVOICING

Accelerate Cash Flow. Ensure Compliance.

Streamline multi-channel invoice delivery

Designed for Accounts Receivable teams to automate invoice processing and expedite payments, Billtrust Invoicing streamlines the entire process, centralizing delivery across multiple channels, reducing costs, and speeding payments. Continually improve your financial outcomes with real-time visibility into your invoicing performance, from tracking to analyzing and optimizing your delivery and payments. Automate submissions to 260+ AP portals, delivering invoices faster and more efficiently. Compliance with the ever-evolving global electronic invoice regulations is built-in and we support international language and currencies.

“Billtrust has changed the way we do business. They’ve helped us to think outside of the box, and now our customers have options that they didn’t have before. Cost savings have been a major factor, but most importantly, our team is working smarter, not harder because of the technology Billtrust has provided us, and there’s no price tag on that!”

Marissa Rizzo, Director of Billing and Accounts Receivable, Action Carting

Increase efficiency

Automate processes. Centralize multi-channel invoice delivery.

Accelerate payments

Reduce DSO with faster invoice processing.

Ensure compliance

Comply with e-invoicing mandates and policies.

Invoice management

- Access all invoices on a single dashboard, tracking their status across buyer portal, email, AP Portals, print and mail.
- Identify failed deliveries and payments in real time.

Multi-channel, multi-format invoice delivery

- Automate invoice distribution and compliance via email, buyer portal, AP portals, Peppol, invoice clearance platforms, and print.
- Eliminate manual uploads and processing delays, improving efficiency.

Branded portal

- Self-service portal for buyers to view, manage, download and pay invoices.
- Branded interface enhances trust and simplifies transactions.
