ERPs Weren't Designed for Modern AR

ERP systems are great at managing broad financial workflows, but they fall short when it comes to specialized AR needs like advanced analytics, automated credit decisioning, and diverse payment methods.

That's where Billtrust comes in.

Billtrust fills the AR functionality gap with a flexible AI-powered platform that works with your ERP — not against it. You'll improve visibility, reduce manual work, and gain more control over cash flow without overburdening your IT team.

Billtrust vs. Your ERP

AR Functionality	ERP Systems	Billtrust
Real-Time AR Visibility	✗ Limited dashboards and customization	✓ AI-powered insights and cash forecasting
Buyer Portals	✗ Not included or basic	✓ Branded portals with payment flexibility
Invoice Delivery	✗ Limited options	✓ 260+ AP portals, email, print/mail
Collections	✗ Basic reporting	✓ AI-driven prioritization and actions
Credit Management	✗ Manual workflows	✓ Automated scoring and decisioning
Risk Analytics	✗ Alert-based	✓ Predictive insights to prevent disruptions
Integration Flexibility	✗ Custom coding often required	✓ 40+ ERP connectors and seamless data exchange

Why Layer AR Automation Software on Top of Your ERP?

You've invested in an ERP, but are you maximizing its impact? Billtrust's AR software works with your ERP to automate invoicing, payments, collections, and cash application, freeing your team from manual work and helping you get paid faster.

Accelerate cash flow

Send invoices through 260+ AP portals and accept more payment types

Gain real-time visibility

Actionable insights and AI-powered analytics across the AR lifecycle

Free up your team

Automate matching, credit scoring, and collections activities

Improve customer experience

Branded buyer portals and flexible payment options

Reduce IT burden

Works with 40+ ERP systems, no custom coding required

Stop forcing your ERP to do a job it wasn't built for.

Billtrust fills the AR gaps your ERP can't so you can work smarter and get paid faster.

Ready to get started? Let our accounts receivable experts run a model to show you the potential outcomes with Billtrust.
